WHATIZIS

Practice Category/(ies)	Promotion and conservation of cultural heritage
Author of the Practice	Olivier d'Avesnes
Country/EU/Worldwide	France
Short Description	Whatizis Monument is the Nr. 1 app for the recognition of monuments with a guide.
Long Description	With the help of artificial intelligence and visual recognition, this travel guide 2.0 offers to take pictures of the monuments encountered by chance during walks in the city, and thus to benefit from professional audio guides. The application currently references around 400 monuments in Paris. The application allows visitors to explore cultural sites and discover local cultural heritage. The app is available on the app store for devices using Android and IOS.
Type (online platform/ mobile app)	Mobile app
Target Group	Educators and professionals
Free/To be paid for	Free
Adaptation Needs	-
